Amended Order Docket #	12799
Order Docket #	10159

The Department of Ecology (Ecology) has issued this Administrative Order (Order) requiring Ardagh Glass, Inc. (Ardagh) to comply with:

- Chapter 90.48 Revised Code of Washington (RCW) - Water Pollution Control.
- Chapter 173-226 Washington Administrative Code (WAC) - Waste Discharge General Permit Program.
- Industrial Stormwater General Permit, permit number WAR-001134.

Chapter 90.48.120(2) RCW gives Ecology the authority to issue Administrative Orders requiring compliance whenever it determines that a person is about to violate Chapter 90.48 RCW.

ORDER TO COMPLY

Description: Ardagh Glass, Inc. (Ardagh) is covered under Industrial Stormwater General Permit, permit number WAR001134. Permit condition S5 establishes benchmark values and monitoring requirements. Benchmark means a pollutant concentration used as a permit threshold, below which a pollutant is considered unlikely to cause a water quality violation, and above which it may. When pollutant concentrations exceed benchmarks, corrective action requirements identified in permit condition S8 take effect. Permit condition S10 requires that discharges not cause or contribute to a violation of surface water quality standards.

Ardagh's discharge did not meet benchmark values and triggered Level 3 corrective action requirements under permit condition S8.

Permit condition S8. allows a Permittee to request time extension or waiver for the corrective action requirements. Ecology received and reviewed Ardagh's Request for Modification of Permit Coverage (Level 3 time extension) dated May 14, 2013. Ecology issued Order (Docket #

10159) granting a Level 3 Corrective Action time extension until September 30, 2015. Order (Docket # 10159) states:

Ardagh must fully implement the source control and treatment BMPs referenced in the Ecology-approved engineering report as soon as possible, but no later than September 30, 2015.

Order (Docket # 10159) is amended as follows:

- Ardagh must fully implement the source control and treatment BMPs referenced in the Ecology-approved engineering report as soon as possible, but no later than May 30, 2016 for the Phase II corrective actions.
- Ardagh must sample a minimum of 5 storm events in November and December 2015 for the pilot test.
- Ardagh must complete the replace and/or coating of galvanized surfaces no later than September 30, 2016.

No other condition or requirement of Order (Docket # 10159) is affected by this amendment.

ELIGIBILITY FOR PAPERWORK VIOLATION WAIVER AND OPPORTUNITY TO CORRECT

Under RCW 34.05.110, small businesses are eligible for a waiver of a first-time paperwork violation and an opportunity to correct other violations. We have made no determination as to whether you meet the definition of a "small business" under this section. However, we have determined that the requirements of RCW 34.05.110 do not apply to the violation(s) due to a conflict with federal law or program requirements, including federal requirements that are a prescribed condition to the allocation of federal funds to the state.

FAILURE TO COMPLY WITH THIS ORDER

Failure to comply with this Order may result in the issuance of civil penalties or other actions, whether administrative or judicial, to enforce the terms of this Order.
